

OUR 1ST SCIENTIFIC MEETING

Our 1st Annual Scientific Meeting is organised in conjunction with the annual 5-Continent-Congress. The quality of the programme and the large panel of international high-quality speakers is always a top priority to provide the most accurate and up-to-date information in all aspects of intimate treatments. ISRAIT is also actively participating and taking over a significant part in other international meetings of high standard.

INTERNATIONAL SOCIETY OF RECONSTRUCTIVE
AND AESTHETIC INTIMATE TREATMENT

Join the
INTERNATIONAL SOCIETY
OF RECONSTRUCTIVE AND
AESTHETIC INTIMATE
TREATMENT
(ISRAIT)

WHO WE ARE

The International Society of Reconstructive and Aesthetic Intimate Treatment (ISRAIT) was launched in 2017 by an international group of physicians dedicated to all aspects of intimate treatments.

The ISRAIT is a non-profit organisation addressed to intimate procedures. The ISRAIT President and a Board of international gynaecologist, dermatologists, urologist and (aesthetic) surgeons will share the task of managing the society.

OUR MISSION

We would like to discuss all aspects of intimate treatments. Especially the different methods for the reduction of the clitoral hood or elaborate the different approaches for the Labioplasty. Other topics we deal with are complication management after intimate surgery, operative and conservative vaginal tightening, gender adaptive surgery, FGM, buttocks shaping and male intimate surgery besides psychosocial aspects.

OUR GOALS

- ▼ Advancing guidelines of care for the best and safest intimate treatments
- ▼ Maintraining and promoting quality training and education
- ▼ Moving the discussion of intimate treatments forward to increase awareness and recognition of its value among professionals and patients

COMING SOON

- ▼ ISRAIT website with information and news (January 2018)
- ▼ Physicians of all specialties get the possibility of membership
- ▼ „Members only“ area as a communication platform and source of information
- ▼ Regular newsletters
- ▼ International Teaching and Training Centres

"Only the joint efforts of diverse specialties can help the aesthetic and reconstructive genital treatments to develop sustainably. That is why the collaboration between gynecologists, plastic surgeons, dermatologists, urologists, psychiatrist and others is needed."

Dr. Marwan Nuwayhid
